

"LOOK. LISTEN. LEARN. FIRE CAN HAPPEN ANYWHERE!"

Outside Meeting

- Look around the house for place fire could start: cooking, heating.
- Listen for the sound of the smoke alarm: Get out and stay out. Go to outside safe place.

- Learn two ways out by escaping doors or windows.
 Home Escape Plan: If the alarm sounds:

- Get out of the house and stay outside.
- IF alot of smoke was up, get low and under the smoke to your way out.

- go to the outside meeting! a safe place from the house. Call 911.

"LOOK. LISTEN. LEARN. FIRE CAN HAPPEN ANYWHERE!"

LOOK · LISTEN · LEARN.
BE AWARE! Fire can happen anywhere.

Electrical distribution equipment is a leading cause of home fires!

- Check cords for damage such as fraying or nicks. A damage cord can expose wires and result in a potential shock or fire hazard.
- Avoid running cords under rugs, which can damage the cord and cause a fire.
- Extension cords should be used only as a temporary connection. If permanent wiring is required, have additional outlets installed by a licensed electrician.
- Heavy appliances like oven and fridge should be plugged directly into an outlet.
